

ELEMENTARY B

3rd through 5th Grades

Our Elementary B Courses are designed for 3rd through 5th Grade students to have the opportunity to enrich at home learning in a fun, controlled, educational group setting. These courses are not designed to take the place of your curriculum taught at home, but are designed to add to the things students of this age should be learning at home. We also feel that this gives them some social opportunity to learn while engaging with other students of their same age level.
